--- --- ---

About me

My native language is programming, I live for that. I'm familiarized with using libraries and learning new programming languages, take a look on my projects and code knowledges below. The big project I'm currently working on RedEye Engine (redeye-engine.es), I'm using a lot of libraries to build a complete and complex system.

Timeline

Education

Centre de la Imatge i la Tecnologia Multimèdia, Terrassa | 2015 - Current
Video Game Design and Development

Projects

RedEye Engine | 2018 - Current | C++, 3D, Open Source, Game Engine

▶ **Alita: Unbreakable Warrior** | 2019 | ARPG, Custom engine, Cel Shading

▶ **Honey Land** | 2018 | Simulation, Unity, IA

▶ **Age of Empires II - Defenders** | 2017 | Tower defense, SDL

▶ **Outzone Tribute Game** | 2016 | Shoot 'em up, SDL

Skills

Languages

Catalan C2 | Spanish C2 | English B2

Programming

Library implementation | C - C++ - C#

OpenGL C++ & WebGL | OpenGL Shading Language (GLSL)

Web-development front-end(Bootstrap, HTML5, CSS, Javascript) | Flutter Dart

Python | JSON & XML | Fortran 96

IDEs

Visual Studio/Visual Studio Code | Unreal Engine | Unity

Maya | Tableau | Axure RP | Wwise | Audacity

InkScape | Adobe Photoshop | GIMP

Project Managment

HacknPlan, Trello & GitHub

Aptitudes

Motivated, Team-work oriented, Organizational and planning skills
